

# Operating System Concepts

## Linux commands

---

### Assignment #1

#### More linux commands:

Explore the internet and learn about the following *linux* commands:

- rmdir
- locate
- cat
- more
- head
- tail
- ping
- cut
- mv
- touch
- find
- grep
- df
- du
- diff
- tar
- ps
- kill
- wget
- zip, unzip
- alias

For each of the above commands, write a short note and explain their use and usage. Give examples from your experiments.

---

### Assignment #2

#### vi or vim

Vim is a highly configurable text editor built to make creating and changing any kind of text very efficient. It is included as "vi" with most UNIX systems and with Apple OS X.

#### **Self study:**

Visit this website to learn more about *vim* editor:
